ESTABLISHED 1925

____/____/____

Dear _____;

On May 1, 2021 the Rockville Fish and Game Club will host its 21st Annual Ladies' Range Day at its facility in Vernon, CT 06066. Each year we introduce (for a minimal charge) about 140 women and girls (ages 13-113) to shooting and outdoor sports with a full day of one-on-one instruction in handgun, trap, skeet, rifle, black powder, archery and fishing. They are also treated to a continental breakfast, sit-down lunch and a free raffle as well as a demonstration by members of the American Hunting Dog Club. All this takes place in a safe, controlled environment with no spectators allowed.

We feel that the importance of educating women about safe shooting cannot be over emphasized and the encouragement to get outdoors and enjoy the various sports is so important - to physical and mental health!! We also invite, for free, those women in elected positions or school board positions from our area towns.

This event is so popular that it is usually full by mid-February and women flock here no matter what the weather is for that day!! We also realize that 2020 was extremely difficult for many businesses and if you cannot help out we fully understand. If you support the cause but cannot help please let us know that and we will still advertise your website on ours.

We always seek donations from companies that might want to get their name out there. Donations can be in the form of something for a free raffle (we have one for participants and a separate one for our 175 volunteers that help make the day work) or it could be something for each participant and/or volunteer (like a cap or lanyard) or something practical like a piece of equipment we could use for that day and purpose. We also offer display space for your advertisement and a click-spot on our website that takes folks to your website, if you have one.

Please feel free to contact the Ladies Range Day - Coordinator, Wilma Sutherland
