Table Clothes for Ladies Range Day:

There are 3 table clothes of each of 7 groups colors for the 8' long tables. 5 groups of 3 tables each are setup in the Club House for lunch. 2 groups of 3 tables are setup out back. Pickup bucket of table clothes. Steam / press tables clothes slightly but don't have to be perfect.

Inside: Setup up tables so 5 groups of 3 each fit in Club House with 12 chairs down each side (4 per table) and none on ends. Make sure people can walk around and between all for sitting down and getting up. The evergreen, yellow, orange, silver and bright blue go on the tables in the Club House. We usually have 4 sets perpendicular to front wall and one between them and parallel to the back wall.

Put 2 sets of 3 8' tables each out back. They will run parallel to the back wall of building with walking space between even when folks are seated. The Midnight blue and red table clothes go on the 2 groups out back.

These can all be setup 10am Saturday morning of Ladies Range Day. A mason jar goes into the middle of each table (21 jars) with the mints in them.

After lunch at 1pm all table clothes spots get sprayed with Shout. They are then rolled up and put in a laundry basket. These are taken home and washed/dried with like colors and refolded and repacked into bucket. They are then returned to the Club House or to the LRD head.

This is the equivalent of about 8 hours worth of work. If you take on the entire chore and record your hours make sure we get them right. It's the equivalent of 2 hours if you do all the washing and drying also.

You may do the entire chore yourself or find someone to help you with it. We just need names, membership #'s and times recorded to give you correct credit.
